

Kangana Ranaut and the Hindi Film 'Pathaan'

January 28, 2023

On 27th January 2023 was released the Hindi film- Pathaan. Some Hindu leaders in India had asked for boycott of the film. The producer and **Shah Rukh Khan**, hero of the film, supplied data to show that the movie was a great success in terms of the large sale at the ticket windows at the theaters.

Kangana tweeted," "We as artists mustn't speak or think like dhandewale (business-person), we must retain the sanctity of art and vidya, whatever money it brings to the table is a consequence of people's love and whoever wants can go to business websites there are plenty of them and find out about money made."

On the commercial success of Shah Rukh Khan's Pathaan, Kangana said that it is 'India's love and inclusiveness' that is making the Shah Rukh Khan-starrer a roaring success.

Kangana added that **director Siddharth Anand's** film shows "our enemy nation Pakistan and ISI in good light." She continued, "It is this spirit of India beyond hate and judgements that makes it Mahan... it is the love of India that has triumphed hate and petty politics of enemies..."

She further wrote, "I do believe Indian Muslims are patriotic and very different from Afghan Pathans ... the crux is India will never be Afghanistan, we all know what is happening in Afghanistan, it's beyond hell there, so apt name for the movie Pathan according to its storyline is the **Indian Pathan**."
