

## USA to build the largest Consulate in Africa in Nigeria

January 13, 2023

A 10-storey building in a 216-acre plot at a cost of \$537 million is coming up in New Lagos as the new US Consulate.

It shows the USA's confidence in Nigeria.

Europe is also planning to set up a large facility in Nigeria.

**DiGiNews360 wants the Nigerians to have confidence in their own country and in its democracy. USA, Europe or India or other democratic countries may show a great deal of expectations from Nigeria. But it is Nigerians, who have to build their own country.**
