

Democracy in Nigeria is Redeemable

August 15, 2023

August 14, 2023: **Tukur Gusau**, the DHQ Director, Defence Information, frowned at the report, calling on the military to interfere in the democracy of the country.

Senator **Shehu Sani**, former lawmaker, has ruled out calls for coup in Nigeria, saying **Nigeria's democracy is redeemable**.

Sani said," The political activist noted that the struggle for a just, equitable and more prosperous society could **still be won** within the context of democracy."

www.DiGiNews360.com says that the struggle for a just, equitable and more prosperous society can **only be won** within the context of democracy.

There is not a single example of a "*just, equitable and prosperous society*", obtained through colonialism, through communism as in USSR or through the hybrid-system of capitalism-communism-kingship of China. There have been many examples of military rule of a few years or of more than three decades in South America, Africa and Asia. **Not one of them** has been able to remove the curse of poverty, though some of them have driven their countries towards penury.

www.DiGiNews360.com believes that human beings can live in dignity only in societies, with a democratic system.

A democracy is a system, which requires continuous care, continuous nourishment and continuous strengthening according to the changing needs of the society.

www.DiGiNews360.com wants to draw the attention of Senator **Shehu Sani** and **all the leaders** in the **professional, political and social fields of Nigeria** to a pertinent extract from the address, delivered by **Prime Minister Narendra Modi**, a few hours back:

August 15, 2023: Delhi, India: Prime Minister Narendra Modi said," Strengthening **probity, transparency and impartiality** are societal responsibilities." He said India would be **among the top three economies of the world within the next five years**. He added that he was able to say it with confidence because he had faith in the **hard work**, and **proWess** of the

people and because he knew about the millions of young men and women, who were **acquiring skills and building up the capabilities** by using the nation-wide programs of his government. Mr. Modi was delivering the Annual Address, which every Prime Minister of India delivers from the ramparts of Red Fort, Delhi.

---**Conspiracies to Derail Democracy in Nigeria by the Political Elite**---

On May 16, 2023, when Nigeria was preparing for the inauguration of its newly-elected President, **Usman Baba Alkali**, the then **Inspector General of Police (IGP)**, said, "The Nigeria Police and the national intelligence community have been closely monitoring the activities of the **political elite** as well as other elements who want to truncate our democratic heritage in the advancement of their narrow personal political considerations."

15 May 2023: Abuja, Nigeria: Usman Baba Alkali, IGP

The IGP had expressed his determination to ensure that the program of swearing in the new President was conducted without any interruption. He had appealed to the media to be wary of the intents of these **political gladiators** and to resist the urge to deploy their credible media outlets to advance their **destabilization plots**.

www.DiGiNews360.com and the people of Nigeria were never informed, by the IGP, about the **identity of the Political Elite of Nigeria**, which was indulging in the nefarious games of derailing the swearing-in ceremony of 29th May 2023. Probably the IGP could not get evidence, which could stand in a court of Law. But such anti-democratic elites are not absent in Nigeria.
