

Israel & Hamas: Moving towards a wider war?

Dec 17,2023

December 17, 2023: Jerusalem, **Isarel**: Prime Minister Benjamin Netanyahu said that he will not again commit the mistake that Isarel committed through Oslo Accord in 1993, through which a two-state solution was attempted. He said that a barbaric attack like that of October 7,2023 cannot be permitted again. He added that the perpetrators of the in-human cruelties must be eradicated.

A NEW DEVELOPMENT: Hamas leaders, who were moving about freely in Qatar, have gone underground. Are they afraid of Mossad?

While India and the world agreed with the basic premise of PM Benjamin Netanyahu the collateral civilian's death in Gaza are becoming too high to be accepted by the world. UN general assembly resolution of Dec 8,2023, for which 153 countries favored, 23 countries abstained and 10 opposed, expressed this feeling of the world.

On 17th December in an attack on a hospital in **Khan Younis**, a hospital was damaged. But Isarel said that 70 Hamas terrorist were using hospital premises for launching the missiles at Israel and they all surrendered to Isarel defence forces. On the one hand it is difficult for any one to accept an attack on the hospital on the other hand Hamas is known to be using hospitals and schools as civilian shields for their own safety.

Khan Younis Hospital

EDITORIAL COMMENTS: www.DigiNews360.com calls upon the Hamas leadership to vacate the civilian facilities like hospitals and school and stop using them as Civilian shields, we also call upon the Hamas leaders leaving in Qatar, Turkey and other places to ensure that Hamas does not use civilians as their protective shield. www.DigiNews360.com calls upon Isarel to find a way of drawing out the Hamas terrorists without attacking hospitals and schools in Gaza.

PM Netanyahu talking to Isarel Defense Force(IDF)

EDITORIAL COMMENTS: Readers of www.DigiNews360.com may be remembering that after the Oslo Accord when the elections were held in west bank and Gaza in 2005, persons with affiliation with Hamas won a majority in Gaza. Hamas then illegally took over the government in Gaza and ruled over it, without having any elections during the last 18 years.

President Joe Biden has warned Isarel not to think of occupying Gaza.

The issue that must be addressed by UN security council and the world is about ensuring that the Palestinian authority, if re-installed in Gaza, it is not supplanted by a terrorist group again.

EXPANSION of the ISAREL, HAMAS WAR: Iran has successfully nurtured strong militias in Lebanon, Yemen, Iraq, Syria and Gaza these militias have been trained and armed by Iranian regime. Hezbollah, the militia in Lebanon has started attacking the border facilities of Isarel. On Dec 17th Isarel has counter attacked

and destroyed Hezbollah facilities in Lebanon, by going as much as 43 km inside Lebanon

Houthis Captured the commercial ship

Houthis of Yemen had been sending drones for attacking the US naval ships in the Mediterranean Sea and they have also tried to attack Isarel however, all these drones were shot down and could not inflict any damage. They have also attacked and taken over commercial ships in the red sea. Now USS has sent its naval ships **Eisenhower** to gulf of Aden this USS ship is likely to try to keep the Red sea open for commercial shipping and this could lead to wars with Houthis.

A missile attack was mounted by Iraqi militia on the American embassy compound in Bagdad, such attacks may not go unpunished by USA

EDITORIAL COMMENTS: www.diginews360.com, thinks that American – Hamas war has reached the stage where it can draw in west bank, Siraya, Lebanon, Iraq and Yemen into the war, there is a possibility that a wrong step by the adversaries may draw-in Iran and Turkey also. This can lead to a big war causing destruction to a wide area. www.diginews360.com calls upon all this countries to act with wisdom and to avoid the war which will bring no benefit to anyone and which can impoverish the whole area for decades.
