

Gaza War: “Say Glory together”

Dec 18,2023

Dec 18,2023: Gaza and ‘ the areas of Isarel near the Gaza border’ :**Isarel Defence force**(IDF) showed to the world a tunnel reaching close to the borders of Gaza with Isarel. The tunnel was more than 20 m deep and was so wide that a vehicle could move easily in the tunnel. IDF spokesman said that inside the tunnel are modern offices with internet and other communication facilities, where the top brass of Hamas terrorist could manage their activities. The in-human attacks of oct 7,2023 on the helmets of kibbutz’s of Isarel near the border of Gaza might have been planned in these offices and the hostesses might have been taken through the same tunnels back to Gaza.

Tunnels near Gaza Isarel border found by IDF

www.diginews360.com marvels at the huge expenses which might have been incurred on building such ‘luxurious’ tunnels for the ‘meaningless’ mounting and managing terroist attacks. In the improvised region of Gaza where 80% of 2.3 million people were leaving on United Nations doles such extravagant expenditure could only be planned by an un-elected dictatorial government like that of Hamas in Gaza. It may be noted that no government/authority/system has been able to provide jobs to 4 generations of refugees in Gaza and the World has to support them through doles for 75 yrs.

The Hamas and most of the governments around Isarel do not recognize Isarel and have declared openly the objective of annihilation of Isarel www.diginews360.com can interpret the word 'annihilation the genocide of Jews' in today's Isarel.

After Oct 7,2023 has declared its objective of 'finishin' the Hamas. www.diginews360.com can interpret the word 'finishing' as either killing or imprisoning every single Hamas terrorist, however the Hamas has its missile production and launching facilities and its management offices located in the hospitals,schools in densely packed areas of Gaza, there is no easy way of reaching a Hamas terrorist without colletral damage to civilians.

Isarel Defence Force

Isarel claims to have destroyed 40% of the tunnels used by Hamas terroist, it also have claimed to have killed some leaders of Hamas groups however, reports from the Hamas government, say that 18,000 civilians including many children have been killed in the attacks by IDF on Hamas terroists.

www.diginews360.com has no way to confirm the data of children and civilians killed by IDF. It also appreciates the fact that even during the war IDF issues notices in Arabic language asking the civilians to vacate the areas which it wants to bomb but, www.diginews360.com says that there is no way of avoiding civilian causalities completely when the Hamas facilities in Gaza are attacked.

The whole of the world sympathizes with civilians who are trapped in Gaza during this Israel and Hamas war. **Nasim Khan** a poet has expressed the anguish and the feelings of the world in the following words:

*The mom who ties the tag to her child
To find him out from the hide
of tumble of devastated
from the blast orchestrated
May be she is not smart like you
Still may be in the path of true
But at least
Not a beast.*

*The Children even under eight
Do not know what crooked and straight
Under the debris with no trace
and the families with gloomy face
Pray for mercy and pray for grace
With no food, water and shades
May be fool hoping something from high priest
but at least not a beast.*

*From Babylon You remembered Zion
and may be from colosseum with lion
As warned long long ago
O'er the ages still there's echo
Despite your name and fame
Same game ends up with same.*

*But still there is hope of grace and mercy
As the mercy and grace has redundancy
May be you are not enemies even not friends
may be you all know how it ends.
May be you are stranger to each other
But still you can say the glory together.*

By Nasim Khan

www.diginews360.com ask all its readers to pray for innocence civilians and to ask for mercy of the almighty.
