

A Note: I have received **the following message** from a well-known Surgeon from Ahmedabad. His family is associated with a University, in Ahmedabad, as a Director.

The *University* is working to provide excellent education. It is also attempting to inculcate a pride in India's age-old knowledge system through instituting a Department of Indic Studies, tasked with conduct of *critical studies of Indian Knowledge System, in collaboration with and under the guidance of Shri Rajiv Malhotra of Infinity Foundation.*

You may find **the message** interesting.

Please write down your view-point and please send it to me for publication on the website.

Shri **Narendra Modi** and **Yogi Aditya Nath** have worked to remove the frustrations of the young by making the Police catch every culprit of crimes in **Gujarat State** and in **Uttar Pradesh State**, respectively, without bothering about the culprit's political influence or affiliation.

---- Lawrence hails from the village of Bishnoi, Punjab State ----

Lawrence's Gang operates from Canada, USA, UK, Pakistan, Australia, Thailand and India.

Lawrence was born on February 12, 1993, in **Duttarwali** village in the **Fazilka** district of **Punjab State**. He has been imprisoned under charges of being an **International Terrorist, Extremist & Robber**.

Lawrence holds a Degree in Law ("LLB Degree"). He is the son of a former Police Constable.

A media house has reported that **Lawrence** cites specific reasons, justifying his descent into the world of crime:

Lawrence Bishnoi

Lawrence's Ostensible Reasons for Becoming a Criminal: At his **Law College**, **Lawrence** stood for election to the **Presidency** of the **Students Union**. **Lawrence** lost the election.

VICTORS' CELEBRATION TURNS UGLY: The victors celebrated by insulting Lawrence and his supporters and Lawrence's girl-friend was burnt to death.

PERSONAL REASONS: From that moment, Lawrence turned into a vengeful lion.

When the Punjab Police did not move to punish the murderers of his girl-friend, since they were politically influential in Punjab, Lawrence murdered those responsible for killing his girl-friend and set up a Gang.

His Gang has expanded from Punjab to Canada, and it includes Thailand, Pakistan and other parts of India, like Mumbai, Maharashtra State. A media house has reported that his Gang includes 700 sharpshooters.

SOCIAL REASONS: The blackbuck is worshipped with reverence by Lawrence's community. When Salman Khan, along with other celebrities, was accused of illegally hunting the blackbuck, Lawrence said, in public, in the court, "Even if the law lets you go, I will not."

While **Salman Khan**, under the influence of drugs, has run over many poor people sleeping on the streets, and has killed the revered blackbuck along with other celebrities for perverse enjoyment, **Lawrence** says, according to a report on X (Reference: <https://twitter.com/maheshperi/status/1845308725008933052>) thinks no one calls **Khan** a murderer, because **Khan's** face is hidden behind the paint of an actor. Lawrence thinks of himself as the one, who made **Khan** realize the value of life.

Since **Baba Siddiqui**, the politician from Mumbai, helped rehabilitate **Salman Khan** with **Amir Khan** and **Shahrukh Khan**, **Goldie Barar**, from Canada, managed to send ten sharp shooters to murder the old man in Mumbai.

This article is not written in support of a murderer but rather to highlight that the country's law and politics are responsible for leading a young man astray. There is still a possibility that Lawrence could be given justice under the law and that he could undergo rehabilitation.

Baba Siddique, Salman Khan and Zeeshan Siddique

Some young Hindus believe that the Hindu community needs someone like Lawrence Bishnoi, if the rampant acts of people, from other religions, playing with the religious sentiments of Hindus in the country, are to end. It is true that Lawrence has created an environment, where a Bollywood actor like the **Khan**, after about a decade, has come forward and asked for an apology.

The correct path is to create an environment of mutual respect through Good Governance, as is being done by Shri Narendra Modi and Yogi Aditya Nath.

The broad-minded Hindu society has both the capacity as well as the freedom to decide what is good for the Society, for the Nation, and, for the World (in accordance with the ancient Hindu Dictum of वसुधैव कुटुम्बकम् (means “One Earth, One Family, One Future”).
